3" Squatty pots (tubs)

The company that used to make the squatty or tub pots went out of business. I recently found the company that took over the business and was able to get the tubs made in green (only green). Below is a picture comparing the old style white tub and the current standard pot to the new green tub. ([Pricing on page 5](#))

Egg crate (Plastic Grid) - ($9\frac{1}{4}$ " x 20" x $\frac{1}{2}$ ") (fits in the bottom of 11" x 22" tray) this lightweight grid is used to enhance humidity and can be used with wicking set ups as well. This plastic grid is light weight and has smoothed edges.
